**ARE YOU SCARED  
YOU DON'T HAVE ENOUGH**

**CEUS??**

**HOW MANY DO**

**YOU**

**NEED BEFORE  
THE YEAR ENDS??**

# WHEN DO THE ANNUAL CEU REQUIREMENTS BEGIN?

- The first full month after obtaining certification, whether that is by taking the Competency Exam OR completing a 40-hour PST course
- The hours are adjusted proportionally depending on the date of completion. In January, the annual 12-hour requirement resets, requiring 12 hours between January 1-December 31 to maintain certification status

# HOW CAN I OBTAIN CEUS BEFORE THE END OF THE YEAR?

**VIRTUAL  
ACADEMY**

**STAFF  
MEETING**

**ATTENDING  
A  
CONFERENCE**

**TAKING AN  
IN PERSON  
CLASS**

## Malware Prevention, Discovery, and Recovery (MPDR)

*No Cost Cybersecurity Training*

### 32 Hours. Instructor-Led

An intermediate level, hands-on course where knowledge and basic experience is required.

This National Cybersecurity Preparedness Consortium (NCPCC) training course is developed by the Criminal Justice Institute at the University of Arkansas System.

#### Course Description

MPDR will expose participants to analysis of malicious software used by cyber-criminals and cyber-terrorists.

After an introduction to modern malware, participants will learn how to prevent a malware outbreak, discover and identify malware through active network traffic analysis, prepare for dynamic analysis of malware samples of various types and intent, and how to isolate, re-mediate, and recover from a malware outbreak.

Finally, the course will conclude with a review of dynamic malware analysis and a look at emerging trends in the use of malicious software in network intrusions and data theft.

For more information about cybersecurity training through the NCPCC, visit [NationalCPC.org](http://NationalCPC.org)

All NCPCC courses are certified and funded by the DHS Federal Emergency Management Agency.

November 13-16 2023  
Class starts at 8:00am  
Location of Training:  
Auburn University at Montgomery  
75 TechnaCenter Drive  
Montgomery, AL 36117

CJI contact:  
Steven Washkowiak  
swashkowiak@cji.edu

Register here:  
[Malware Prevention, Discovery, and Recovery](#)

#### Target Audience

This course was developed for technical personnel and technical managers within the public or private sectors affiliated with an agency or organization considered as part of our nation's critical infrastructure.

#### Prerequisites

Participants should have some experience as a cybersecurity professional, a basic understanding of network concepts, and a basic understanding of computer operating systems.

**Preferred Prerequisite:** Two years experience as a system or network administrator, or as an IT security specialist.

#### Required Materials

This course is delivered in a mobile training lab, using laptops that are preconfigured with hands-on exercises that immerse participants in real-world cybersecurity examples.
