202 6th Street S | Clanton, AL

***Beyond the Headset:
Professionalism, Communication, and
Influence in the ECC***

ALABAMA APCO - LEADERS IN PUBLIC SAFETY COMMUNICATIONS

Winter Workshop

February 10, 2026 | Clanton, AL

In the high-pressure world of 9-1-1, technical skill is only part of the job—how we communicate, respond, and engage with one another shapes the culture of our centers just as much as how we answer the call.

Through interactive and reflective sessions, participants will explore navigating conflict with intention, managing gossip and miscommunication, responding with grace in challenging moments, and discovering meaningful ways to become involved beyond the console. This workshop empowers 9-1-1 professionals to move from reaction to response and to positively influence culture—one interaction at a time.
